A GLIMPSE @ IOA

When IOA was founded over 20 years ago, the vision to create a new standard for insurance agencies and workforce management began to take shape. Today IOA is one of the fastest growing independent insurance agencies in the US, the largest privately-held agency in Florida and has eight subsidiary companies to complement their client offerings with services ranging from payroll to HR services to a suite of business support services.

Although their growth, size and sustainability are impressive, they pale in comparison to their people and their corporate culture of giving and putting others first. The combined experience, talent and dedication make the EAF and IOA partnership a great new resource for EAF members and their companies.
